STAINLESS STEEL WARNINGS

HANDLING THE FIREBACKS: The stainless steel firebacks are shipped in vinyl to prevent marring the surface of the stainless steel. Remove the vinyl prior to installation. **Wear clean gloves when installing the firebacks** to prevent fingerprints on the surface (or use a rag or paper towel to handle the firebacks).

COLORATION AND CLEANING: These stainless steel firebacks will obtain a slight "patina" (brown tint) after use. Do not clean the firebacks. This patina becomes consistent. Any cleaning may lead to unequal coloring. If soot forms on the fireback, we recommend brushing it off with a soft cloth or brush.

CLEANING ENAMEL FIREBACKS

We recommend cleaning the enamel surface with glass cleaner and a soft cloth.
